

Introducing the new nurse at SETAC!

Welcome to SETAC,
Jane Lock

We are very lucky to have such a dedicated community nurse on our team.

Jane trained as a registered nurse in UK and moved to Australia 2008 and has called Tasmania home since then.

Jane has worked in both primary, secondary and tertiary care in both UK and Australia.

Most recently, she worked as a clinical lead for a home care provider, with a passion and a mission to re-enable her clients and their family and friends to live the best life they can.
